

WHAT'S HAPPENING HERE?

THE PASSAGEWAY

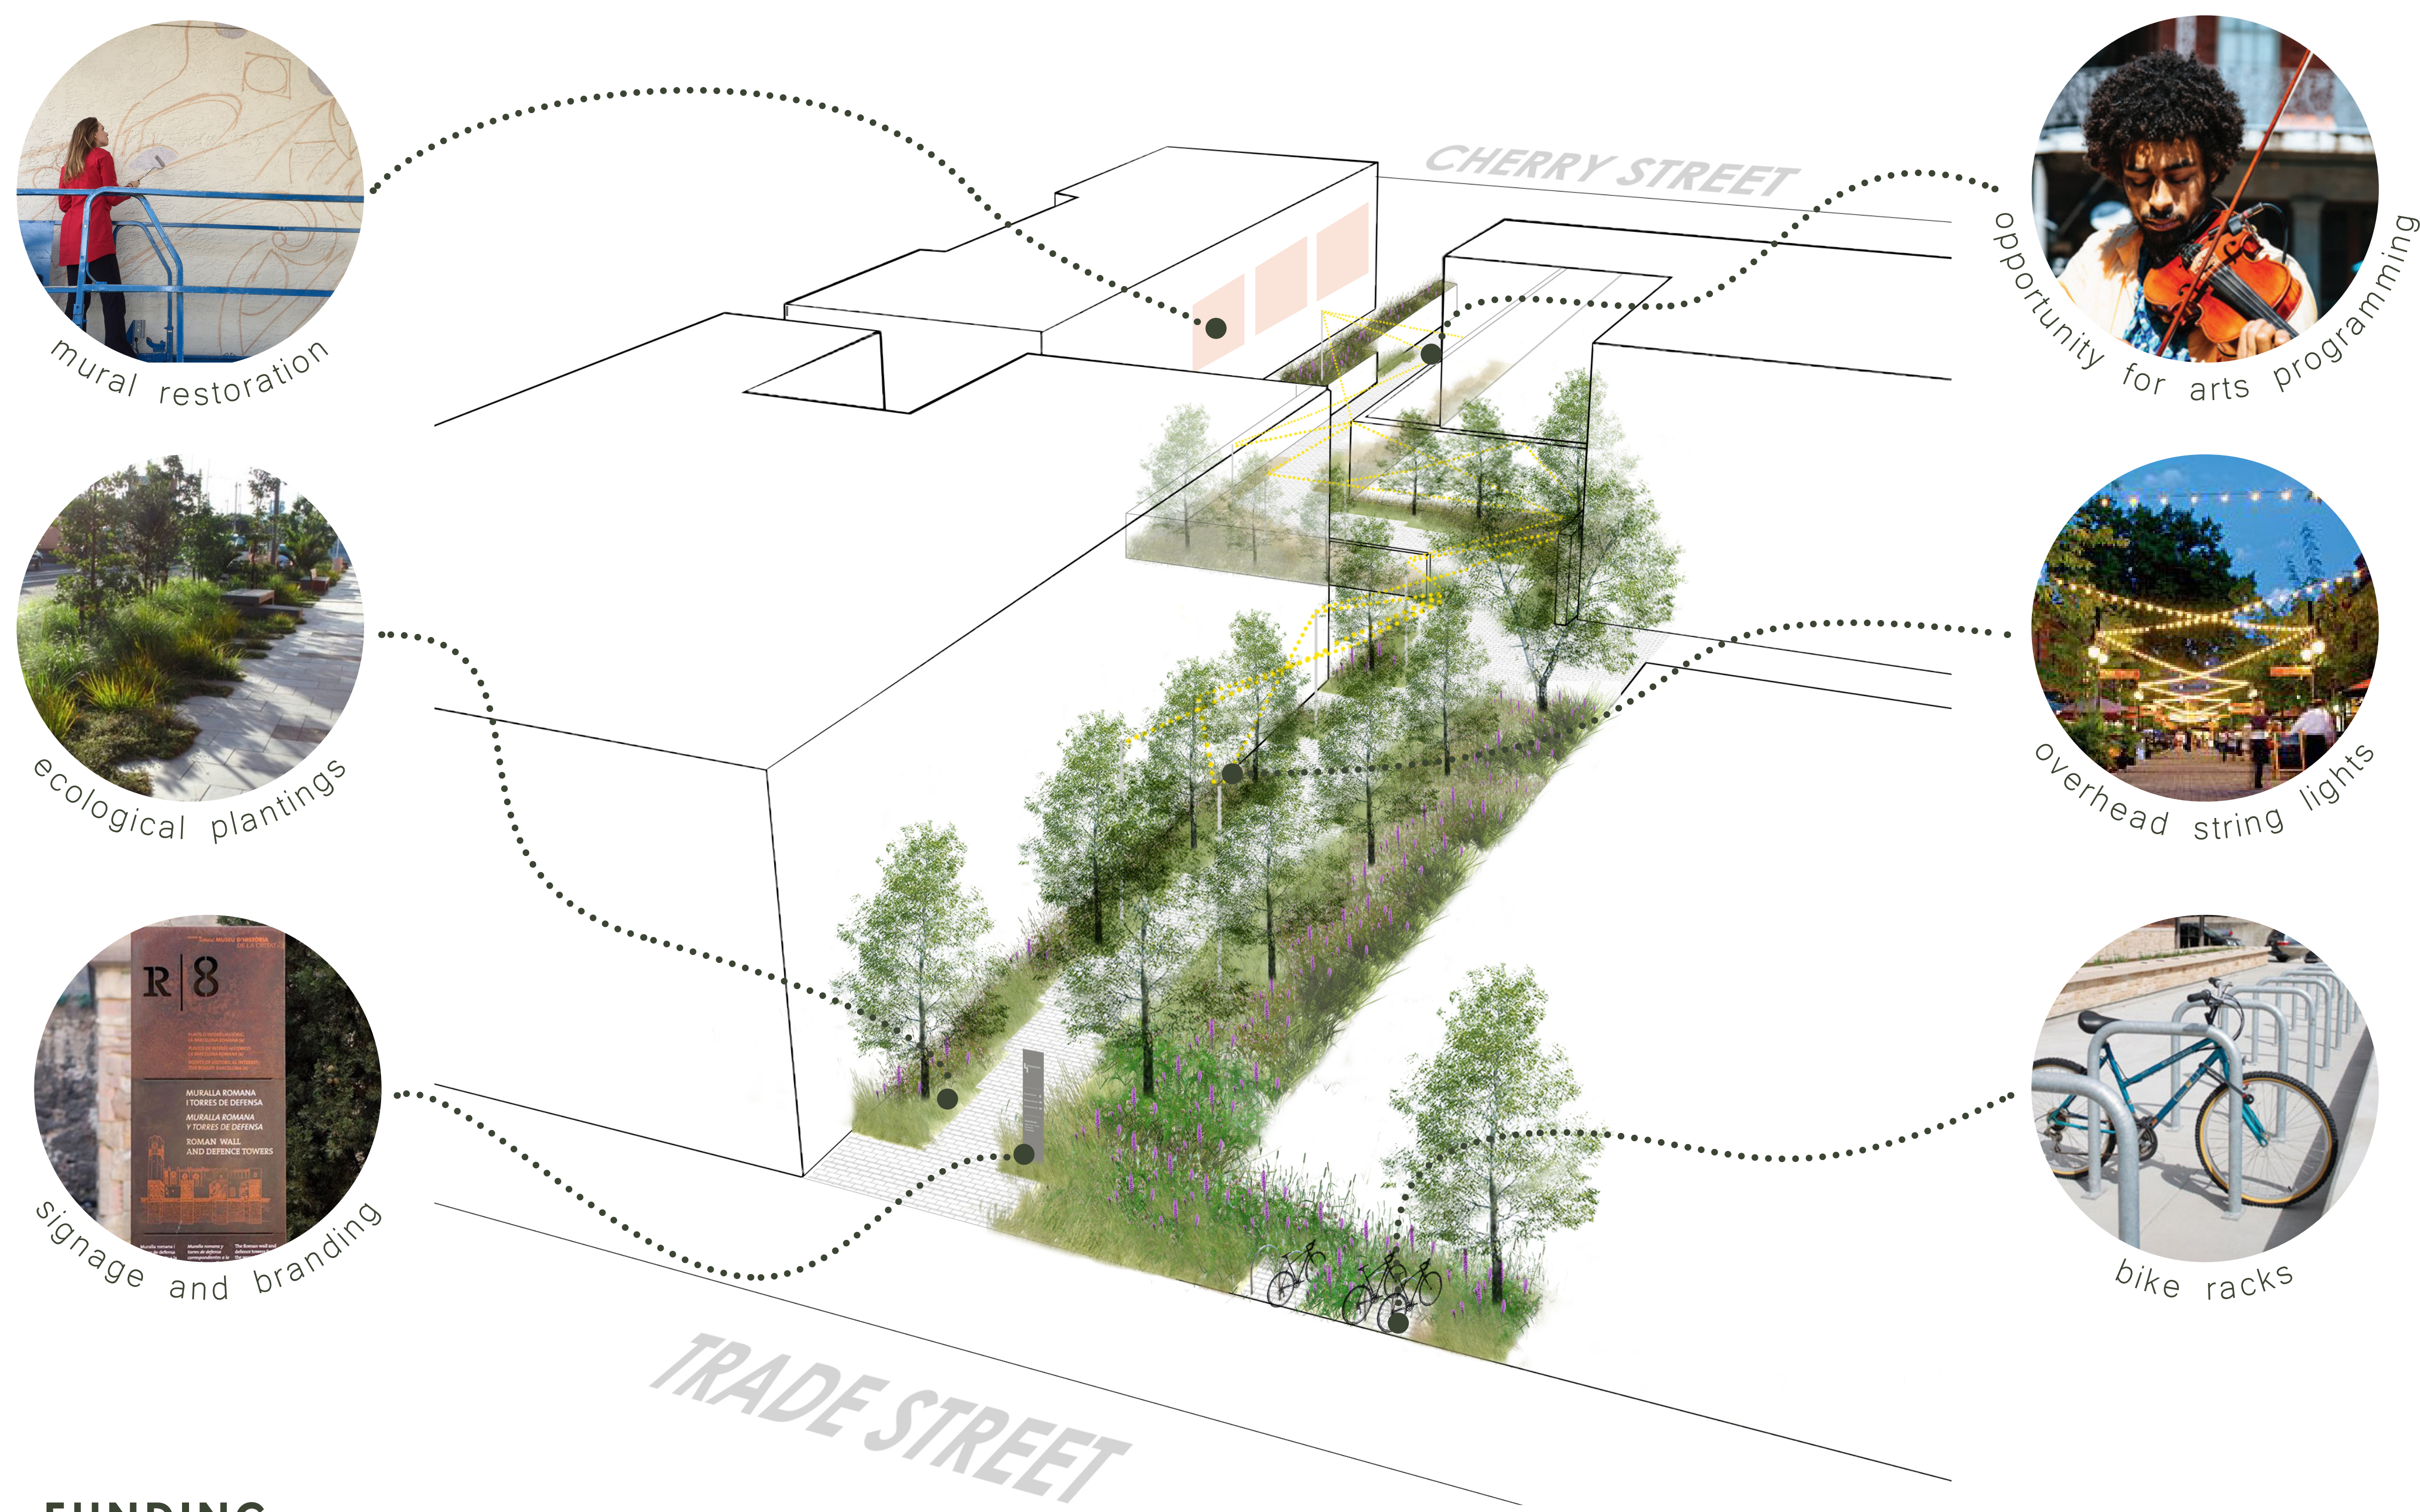

The Passageway is a 1970s-era walkway that had fallen into disuse and is currently being redeveloped. The new design for the Passageway aims to honor the original design while adding in new artistic lighting and ecological plantings throughout the space.

Our hope is for the new Passageway to serve as a strong example of ecological design in downtown Winston-Salem. This site will demonstrate to the entire community the ability for ecologically oriented plantings to address specific environmental concerns in a downtown environment, while at the same time, bring a restful and green refuge to our downtown.

Ecological improvements include:

-  reduction of stormwater runoff
-  improvement of water quality
-  provision of habitat for birds and pollinators
-  reduction of heat island effect

PROJECTED COMPLETION: JUNE 2018

FUNDING:

The rehabilitation of the Passageway was made possible by Downtown Winston-Salem Business Improvement District, City of Winston-Salem, Downtown Winston-Salem Partnership, Downtown Winston-Salem Foundation, Millennium Fund, John Wesley and Anna Hodgin Hanes Foundation, The Winston-Salem Foundation, Marriott Winston-Salem Hotel, Garden Club Council of Winston-Salem, and donations in memory of Richard W. Redding and R. Philip Hanes Jr.
